

ASD Programs 2023-24 Annual Education Report

February 9, 2024

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2022-2023 educational progress for the Ingham Administrative Unit (Programs for students with ASD). The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Amber Slocum at 517.244.1414 for assistance.

The AER is available for you to review electronically by visiting Ingham ISD (www.inghamisd.org), or you may review a copy in the main office at your child's school.

For the 2022-2023 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school has not been given one of these labels.

Due to the low number of students (<19 students total) in the ASD Program, the data in the combined report regarding student achievement is not reportable as it would compromise student confidentiality. The ASD Program consists of three classrooms for students in preschool through eighth grade with no more than seven students in each classroom with specially trained teachers. The students served in the ASD program have an educational eligibility of Autism. The program provides a high level of structure and support centered on evidence-based practices to meet academic, communication and social emotional needs for students with Autism.

State law requires that we also report additional information:

- PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL
 The program works with Ingham County school districts to provide evidence-based services to students, as determined through the Individual Education Plan (IEP) process.
 We do not enroll students independent of local involvement. If an individual is interested in the program we provide, their first contact should be with the special education director in their local school district.
- 2. THE STATUS OF THE 3-5 YEAR SCHOOL IMPROVEMENT PLAN Our school improvement plan contains the following goals:

- **Communication:** Students will increase their interactive communication skills through the utilization of visual supports.
- **Integration with Typical Peers:** Students in the ASD program will increase the time they spend with neuro-typical peers in any educational setting.
- **Independence:** Students will increase their dependency on systems and decrease their dependency on adults.

The aforementioned goals are aligned to the curriculum and also support our mission, vision and beliefs:

- Vision Statement: It is the vision of the programs for students with ASD to provide the quality programming necessary to improve outcomes for students with autism spectrum disorder.
- **Mission Statement:** The ASD program staff has a mission to provide students with autism the necessary skills to increase independence, socialization and communication to their maximum potential.
- **Beliefs Statement:** The ASD program staff believe that all children with autism spectrum disorder will improve their communication, socialization and independence skills when taught using evidence-based practices.
- 3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL

The ASD Program consists of three classrooms for students in preschool through eighth grade with no more than seven students in each classroom. The classrooms are located within local district elementary buildings which provides the opportunity to integrate students with non-disabled peers. The students served in the ASD program have an educational eligibility of Autism. The program provides a high level of structure and support centered on evidence-based practices to meet academic, communication and social emotional needs for students with Autism. The programs provide a high ratio of staff to students and an academic curriculum that is individualized while also meeting the State standards. Curriculum is reviewed annually, and improvements and modifications are made as needed.

The program for students with Autism Spectrum Disorder continues to strive to provide evidence-based practices that encompass socialization and independence skills. The program's teachers are highly trained and skilled at providing the best educational experience possible to help the students learn the necessary skills to become productive and independent citizens in their communities.

4. Core Curriculum: The core curriculum can be accessed through your student's teacher or by contacting Amber Slocum at 517.244.1414. Additionally, please visit <u>Common Core State Standards Initiative</u> (<u>www.corestandards.org</u>). Students may participate in a modified core curriculum based on the <u>Common Core Essential Elements</u> as determined by the IEP team. This varies from the state's model in that these elements focus on the critical components of the Core Curriculum, brining learning targets within reach of our students. The programs for Autism Spectrum Disorder have a program wide curriculum,

Unique Learning Systems to pair with the essential elements. Students may also participate in general education classes with access to the general education curriculum. Curriculum may be modified to meet the individual needs of the student.

- 5. THE AGGREGATE STUDENT ACHIEVEMENT RESULTS FOR ANY LOCAL COMPETENCY TESTS OR NATIONALLY NORMED ACHIEVEMENT TESTS Due to the low number of students (<19 students total) in the ASD Program, the data regarding student achievement is not reportable as it would compromise student confidentiality.
- 6. IDENTIFY THE NUMBER AND PERCENT OF STUDENTS REPRESENTED BY PARENTS AT PARENT-TEACHER CONFERENCES

 Ninety percent of students were represented by parents at Parent-Teacher conferences either at the school or outside of school. We value parental input and make every effort to meet parents at the most convenient location possible.

Ingham ISD is pleased to have the opportunity to work with our constituent districts to serve students and look forward to continued growth and educational success.

Sincerely,

Amber Slocum
Supervisor of Autism Spectrum Disorder Programs

NAEP Participation Data

Grade	Subject	Participation Rate for Students with Disabilities Excluding Students with 504 Plans	Standard Error	Participation Rate for Limited English Proficient Students	
4	Math Reading	80.7 83.5		95.0 94	2.55 2.37
8	Math Reading	86.9 89.3		95.0 95.7	2.21 1.91

The National Assessment of Educational Progress (NAEP) is periodically administered by the U.S. Department of Education based on assessments administered to samples of students in each state. Federal regulations require the display of state level NAEP data on the Annual Education Report. These data represent the performance of the most recent sample of Michigan students on the NAEP.
