ADVANCING FUNDS TO CONSTITUENT DISTRICTS

The Board of Education is interested in assisting the local districts in advancing their practices in teaching and learning for students. To further this interest, the Board may consider advancing funds to individual school districts. In making this determination the extent to which:

A. The request would advance teaching and learning.
B. There is a consideration of advancement of funds to other similarly situated locals.
C. This would facilitate a pilot program.
D. The individual district would also contribute toward the project and/or service.
E. The advancement would be repaid on a timely basis.

Any agreement under this policy with a local district will be formalized with a written contract spelling out the duties and obligations of the parties. The superintendent will develop the administrative regulation to facilitate the processing of such requests from local districts.
